qualified. If a tie persists, the qualifying NOC/ISU Member will be decided by draw.

Practically, one (1) to two (2) skaters in Ladies Single Skating and one (1) to two (2) skater in Men Single Skating, one to two Pair Skating couples respectively one to two Ice Dance couples per NOC/ISU Member could contribute to the cumulative number of qualifying points per NOC/ISU Member (the maximum two different single skaters/couples would be one skater/couple each at the two applicable group of Events).

NOCs/ISU Members with Teams who have qualified skaters/couples in an individual OWG competition/discipline (the “qualified skaters/couples”) in Ladies Single Skating, Men Single Skating, Pair Skating, Ice Dance) and who have chosen to compete in the Team event must list the respective qualified skaters/couples of such discipline also as entries for the Team event and may not enter different skaters/couples for such discipline.

Also, the same NOCs/ISU Members must have their skaters competing in all the competitions/disciplines of the Team event for which they have entries in the individual OWG competition/discipline. This means that if for example an NOC/Member has only one entry for a discipline/competition, this skater or couple may not choose to skate only the individual OWG competition and skip the Team event competition.

The 10 qualified Teams will compete in the Short Program/Short Dance. The five (5) best Teams having scored the highest number of aggregate placement points (see paragraph 4 of Appendix A below) after the Short Program/Short Dance will qualify to continue the Team event by skating the Free Skating/Free Dance.

D.3.1 Additional Athletes Quota

NOCs/ISU Members who do not have qualified skaters/couples in an individual OWG competition/discipline (Ladies Single Skating, Men Single Skating, Pair Skating, Ice Dance), may benefit of an “Additional Athletes Quota” and enter into the Team event one skater/couple. If applicable, each NOC may benefit of this Additional Athletes Quota for only one discipline of the Team event.

The Additional Athletes Quota of up to ten (10) skaters will be used giving preference to the best ranked “incomplete Teams” according to the ranking of the Figure Skating Team qualification list. The Additional Athletes Quota beyond the above-mentioned ten (10) skaters cannot be exceeded and if not sufficient, the lower ranked “incomplete Teams” according to the ranking of the Figure Skating Team qualification list, may in such case not be able to complete their team.

NOCs having skaters in a discipline qualified for the respective individual OWG competition/discipline but who chose not to enter such skater(s) into the individual OWG competition/discipline, may not benefit of the Additional Athletes Quota.

The Minimum Total Elements Scores determined by the ISU for this Additional Athletes Quota may be different from the Minimum Total Element Scores for the individual OWG competitions/disciplines. The applicable Minimum Total Element Scores shall be decided by the ISU Council and shall be published in an ISU Communication at the beginning of the Olympic season 2017/18.

QUALIFICATION SYSTEM FOR THE XXIII OLYMPIC WINTER GAMES PYEONGCHANG 2018

HOST COUNTRY PLACES

- The host country places will only be implemented if there are remaining places from the ten (10) Team event “Additional Athletes Quotas”.
- If the Republic of Korea qualifies in all individual events (Ladies Single Skating, Men Single Skating, Pair Skating, Ice Dance), the host country places will not be applied.
- In the case where the host country, the Republic of Korea, went through the normal qualification procedure and did not qualify for any or only for some of the individual events (Ladies Single Skating, Men Single Skating, Pair Skating, Ice Dance), the Republic of Korea will be allocated one host country place for the individual event(s). This means that the host country places would apply, if applicable, for one (1) skater in Ladies Single Skating and/or one (1) skater in Men Single Skating and/or one (1) Pair Skating couple and/or one (1) Ice Dance couple for a total maximum host country places of six (6) skaters. As mentioned above, such host country places will only be implemented if there are remaining places from the ten (10) Team event “Additional Athletes Quotas”.
- The nominated skaters using the host country places will compete as number 31 in the Men Single Skating /Ladies Single Skating events, pair number 21 in the Pair Skating event or as couple number 25 in the Ice Dance event.
- The nominated skaters using the host country places must have the minimum eligibility standard set as for all other skaters at the Olympic Winter Games PyeongChang 2018, in particular but not limited to having achieved in due time the Minimum Total Elements Scores determined and published by the ISU.
- These “host country place” skaters will only compete in the individual events. It is important to note that these host country places do not automatically constitute a team for the host country in the Team event unless the host country qualifies for the Team event through the normal qualification process as described in D.3.

E. CONFIRMATION PROCESS FOR QUOTA PLACES

Following each qualification event, the ISU will publish an official communication on its website (www.isu.org) and inform the respective NOCs of their allocated quota places within two (2) weeks of the date on which the quota place was confirmed. The NOCs will then have 14 days / two (2) weeks to confirm if they wish to use these quota places. Please refer to section G. Qualification Timeline for detailed information.

The Qualified NOCs/ISU Members for the Team event will be officially informed by the ISU Secretariat shortly after the ISU Grand Prix of Figure Skating Final in December 2017 and must enter their skaters/couples by respecting the entry deadlines applicable for the 2018 OWG.

F. REALLOCATION OF UNUSED QUOTA PLACES

Qualification places earned and not used for the individual events (not the Team event) by the NOCs, will be filled by stand-by NOCs based on the final result of the designated ISU Senior International Qualification Competition for those NOCs not qualified and not yet represented.

In case that any Qualified NOC/ISU Member cannot send its Team to the OWG for whatever reason, the ISU may invite the NOC/ISU Member whose Team is ranked next in the Figure Skating Team event qualification list.

2) CONFIRMATION AND ENTRY PROCEDURE

If an NOC/ISU Member has two (2) or three (3) entries in an individual OWG competition/discipline then the NOC/ISU Member must confirm the name of the participants who will compete in the Short Program/Short Dance of the Team event as follows:

Men Single Skating and Pair Skating Short Programs	Latest at 10:00 a.m., local time on the site of the OWG, the day before the Team Event Men Single Skating and Pair Skating Short Programs
Ladies Single Skating Short Program and Ice Dance Short Dance	Latest at 10:00 a.m., local time on site of the OWG, the day before the Team Event Ladies Single Skating Short Program and the Team Event Ice Dance Short Dance. For the five (5) Teams qualified for the Free Skating/Free Dance of the Team event the NOC/ISU Member must declare within the Team Leaders Meeting, scheduled 10 min. after the Team Event Ladies Single Skating Short Program, the names of the pairs skating the Team Event Pair Skating Free Skating segment.

In principle, the skaters/couples competing in the Free Skating must be the same as those having competed in the Short Program/Short Dance, however each Team has the option to replace up to two (2) entries (two Single Skaters or one Single Skater (Lady or Man) plus one couple (Pair Skating or Ice Dance) or both the Pair Skating and Ice Dance Couples) between the Short Program/Short Dance and the Free Skating/Free Dance provided such qualified skaters/couple is part of the accredited delegation on site of the OWG.

3) STARTING ORDER

The participating skaters/couples will be listed according to their ISU World Standing placement at time of the Team event. The starting order in the Short Program or Short Dance segment will be the reverse order of the ISU World Standing placements. In the case of any tie, there will be a draw to determine who skates first.

Skaters/Couples, not having earned any ISU World Standing points will be listed at the bottom of the ISU World Standing list in NOC/ISU Member order. There will be a separate draw between those skaters/couples of the respective discipline with no World Standing points to determine the starting order.

For Free Skating/Free Dance the starting order will be the reverse order of the respective result of each discipline after the previous segment.

4) ISU JUDGING SYSTEM – RESULT DETERMINATION

The ISU Judging System as described in the 2016 ISU Special Regulations Single and Pair Skating/Ice Dance shall apply, in particular but not limited to Rule 352 and Rule 353.

To determine the result after the Short Program/Short Dance and for the final result after the Free Skating/Free Dance of the Team event the following rule will be used:

QUALIFICATION SYSTEM FOR THE XXIII OLYMPIC WINTER GAMES PYEONGCHANG 2018

For each discipline and segment Team Points will be awarded as follows:

7 th	4 placement points
8 th	3 placement points
9 th	2 placement points
10 th	1 placement point.

The top 5 ranked Teams based on the number of aggregate Team points in the Short Program / Short Dance shall continue the Team event by competing in the Free Skating/Free Dance. In case of a tie on the 5th place, the tie breaking criteria are listed below.

The Team having earned the highest number of aggregate Team points in the Short Program/Short Dance and the Free Skating/Free Dance is the winner, the Team having earned the second highest number of Team points is ranked second and so on.
